RED HOT CHILI PEPPERS EXCLUSIVELY ON VODAFONE

Vodafone celebrates 4 million tunes downloaded from the Vodafone live! portal with "Dani California"

Milan, April 12, 2006 – **Vodafone** is launching the **Red Hot Chili Peppers'** "**Dani California**" on Vodafone live! Music in collaboration with **Warner**.

The single can be downloaded until April 25 exclusively from the Vodafone live! Portal and is included in the **Red Hot Chili Peppers'** long-awaited new album, "Stadium Arcadium", to be released on May 5, three years after the band's last album.

Once again, Vodafone is offering music fans the chance to be the first to download the best international songs on to their mobiles. Madonna, Rolling Stones and Pink are just some of the big hits that have helped to achieve the figure of 4 million music downloads on Vodafone live!

Until April 17 Vodafone customers can be **the first** to download the **video** of the single "**Dani California**" on Vodafone live! From **May 5** to **June 5** **three ringtones** from the new album will also be available, including the one from the **second single**.

Live! Music by Vodafone, with its catalogue featuring over 500,000 titles and all the latest hits, is a must for music fans - a Juke Box that allows customers to download songs on to their UMTS mobile starting from just 99 cents (including VAT).
